## Deal Or No Deal

### Focus:

Students need to be able to identify when they can deal with a situation or when it has developed into a **no deal** and they need to seek adult help.

### Looks Like

#### Deal:

Students ignoring the student, uses their hands to show the student stop, moving away, telling the teacher if the issue persists.

#### No Deal:

Students reporting major incidents immediately to the teacher on duty.

Students letting them know everything that has happened.

### Sounds Like

#### Deal:

Talking calmly and firmly

Students saying stop I don't like it or use an 'I' statement e.g. when you take my pencils I can't do my work.

Students explaining clearly why they don't like it and why.

#### No Deal:

Students telling the teacher the truth about what happened and giving them all the information.

### Feels Like

#### Deal:

Students feeling in control of the situation when they use their words.

#### No Deal:

Students feeling good that they have informed the teacher.
