## From the Principal

### School overview

Built 109 years ago, our school represents community values, inclusive traditions and educates children for the 21st century. Teaching and Learning is our core business. The curriculum is delivered in a variety of modes to meet the diverse learning needs and talents of our students. We aim to develop and build future-oriented programs to provide challenging and achievable education for each and every child. We strive to achieve our mission to educate the child as an individual, a communicator, a group member, and a part of the physical world so that our students are prepared for living in and contributing to a global society and working in a global community. We are committed to ensuring that every day in every classroom, every student is thinking, learning and achieving. We believe that education is a shared responsibility. We recognise the close relationship between learning, achievement and behaviour. We encourage an environment where the school and home work together so that in the social context of the school, the child becomes a responsible, active citizen. Essential to effective learning is a safe, supportive and disciplined environment that respects the rights of students, staff and parents. Our vision statement, 'Ours the Future', incorporates valuing self and others. We celebrate: ongoing intervention and enrichment programs to cater for strengths and interests of all students through allocation of specialist teachers, additional teacher time, teacher aides, volunteers and cluster school programs; establishing New Farm State School as an environmentally sustainable school with opportunities to use biodiversity, water, waste and energy efficient practices. New Farm School is very proud to offer a broad range of extra curricula activities across academic, leadership, cultural, creative and sporting domains, including an artist in residence program.

## Average class sizes

Table 2: Average class size information for each phase of schooling

Phase of schooling	2017	2018	2019

## Curriculum implementation

The P–12 curriculum, assessment and reporting framework specifies the curriculum, assessment and reporting requirements for all Queensland state schools' principals and staff delivering the curriculum from Prep to Year 12. Further information on school implementation of the framework is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/p-12>.

### Extra-curricular activities

Queensland state schools provide a wide range of subjects and extra curricula activities such as sport, art, music and school camps. Further information can be found here <https://www.qld.gov.au/education/schools/information/programs>.

### How information and communication technologies are used to assist learning

Information and communication technologies (ICT) are an important part of contemporary schooling. The Australian Curriculum includes ICTs as a general capability across all learning areas, as well as Digital Technologies as a specific learning area. Further information on models used by schools to assist learning is available at <https://education.qld.gov.au/parents-and-carers/school-information/student-ict-device-programs/one-to-one-models>.

## Social climate

### Overview

Each Queensland state school develops and enacts policies to support an integrated approach to behaviour, learning and teaching.

Our Student Code of Conduct is our school's behaviour policy, with information about school rules, consequences and processes for addressing bullying and the use of technology. A copy of this is available on our school website.

Further information is also available at <https://www.qld.gov.au/education/schools/health>.

## Parent and community engagement

Our approach to engaging with parents and the community is aligned to the departments Parent and community engagement framework. The framework helps students, schools, parents and the community to work together to maximise student learning and wellbeing. Research shows parent and community engagement that is effectively focused on student learning can deliver powerful outcomes. Further information is available at <https://education.qld.gov.au/parents-and-carers/community-engagement>

## Respectful relationships education programs

Our school has implemented the Respectful relationships education program (RREP) as part of the broad multi-departmental Queensland Government approach to ending domestic and family violence.

The RREP is a Prep to Year 12 prevention program that focuses on influencing behavioural change to build a culture based on equality and respect in our students, staff, parents and wider community. Students are provided opportunities to explore social and emotional learning in self-awareness, self-management, social awareness, relationships, ethics, values, social norms, gender roles, stereotypes, human rights, risk and responsible decision-making. A growing body of evidence shows that social and emotional learning of this nature leads to:

- improved social and emotional skills, self-concept, bonding to school and classroom behaviour
- less disruptive classroom behaviour, aggression, bullying and delinquent acts
- reduced emotional distress such as depression, stress or social withdrawal.

Further information is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/respectful-relationships>

## Environmental footprint

### Reducing this school's environmental footprint

Environmental education has been a feature of Queensland schools for more than 30 years. In many schools it has been creatively and proactively incorporated into the curriculum in each phase of learning, and is also reflected in the school's facilities and in the actions of its principals, teachers and students.

Table 7: Environmental footprint indicators for this school

Utility category	2016–2017	2017–2018	2018–2019
Electricity (kWh)	158,121	182,145	192,592
Water (kL)	932		

Note:

Consumption data is compiled from sources including ERM, Ergon, CS Energy reports and utilities data entered into OneSchool\* by schools. The data provides an indication of the consumption trend in each of the utility categories which impact on this school's environmental footprint.

\*OneSchool is the department's comprehensive software suite that schools use to run safe, secure, sustainable and consistent reporting and administrative processes.
